

BestInterest is the world's **first AI-powered co-parenting app** that filters and rewrites harmful messages between parents. Built to protect families from conflict and coercive control, it helps parents communicate peacefully and keep the focus on their kids. Recommended by experts like psychologist **Dr. Ramani Durvasula**, BestInterest is redefining digital safety for modern families.

KEY FEATURES

- **Message Shield:** AI-based moderation system that filters out inflammatory or manipulative language in real time, helping maintain calm, child-focused communication.
- **Tone Guardian:** Reviews messages before they're sent, detecting emotionally charged phrasing and suggesting calmer phrasing to prevent escalation.
- **Solo Mode:** The only co-parenting solution that works without requiring the other parent's cooperation. Ideal for high-conflict cases and post-separation abuse dynamics.
- **Custom Notifications:** Flexible notification controls that allow parents to adjust how and when communication is received, including options for quiet hours and urgent alerts.

AVAILABILITY

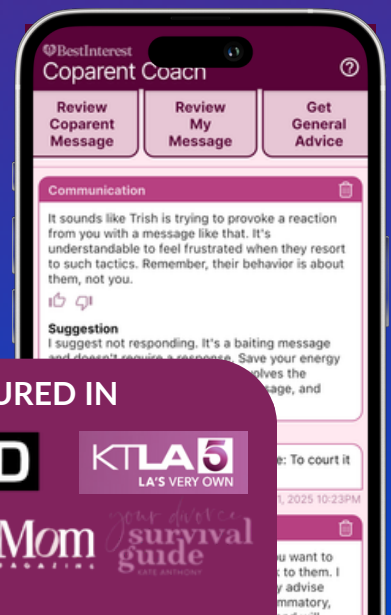

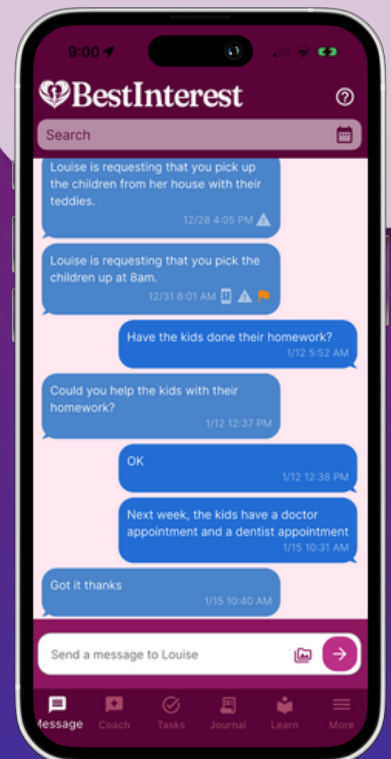

- **Pricing:** \$14.99 per month with 2 week trial
- Available on iOS and Android for users in United States, Canada, Australia, and UK

MEET OUR FOUNDER

Sol Kennedy, Founder & CEO

Sol created BestInterest from his personal experience navigating a high-conflict co-parenting relationship.

His mission-driven goal of helping parents communicate more peacefully has struck a chord with co-parents and co-parenting professionals **longing for an overdue solution.**

Sol also hosts the **Co-Parenting Beyond Conflict Podcast**, sharing insights on managing complex co-parenting dynamics. His content has garnered over 4.6M likes on TikTok (@sol.kennedy).

With BestInterest, we're actively de-escalating conflict so co-parents can focus on what really matters. Every week I hear from parents telling me that our coparenting app has changed their lives. As a coparent myself, seeing the impact we're making means the world to me. - Sol
